Dementia United

What you need to know

Post Diagnostic Support of those with Young Onset / Rare Dementia

This is a webinar to share good practice and to address some of the challenges faced in providing post diagnostic support for those with young onset

Who should attend

It is aimed at **Greater Manchester** professionals who provide any post diagnostic dementia support and commissioners

Further information

Prof Jan Oyebode will open the session speaking about the **Angela Project** that looked at how post-diagnostic support for people living with young onset dementia can be improved. *This will be followed by a panel discussion between Greater Manchester colleagues who offer bespoke support, on what works well, what are the challenges and how we might begin to address these.*
