

The 19th UK Dementia Congress

Learning - Sharing - Inspiring Building our Dementia Community

**The Bridgewater Hall, Lower Mosley Street, Manchester, M2 3WS
on**

Monday 17th and Tuesday 18th November 2025

We look forward to welcoming everyone to UK Dementia Congress for two days of learning, sharing and being inspired to improve everyone's experiences of dementia both in care and in wider society.

UK Dementia Congress 2025 offers delegates a unique opportunity to come together and learn, share and update their knowledge of dementia care, policy, practice and research.

Our goal is for every attendee to leave UKDC2025 feeling better informed and connected, with valuable insights and actionable takeaways that they can use to drive meaningful change.

Our speakers include experts by experience, sector leaders and frontline practitioners from across the dementia, health and social care sectors. We will be discussing issues ranging from technology to young onset dementia, underserved communities to care for advanced dementia as part of a diverse and stimulating programme, full of interactive sessions, lunchtime workshops and networking opportunities.

Early bird tickets end on Friday 10th October 2025. Please visit
